Waste Chutes

We offer you a comprehensive set of high quality products for both residential and commercial buildings. These applications include waste, laundry and recycling chutes, bins and trolleys for proper storage and handling of waste or laundry of various sizes and capacities.

Increased productivity

Less time spent on waste collection means more time for the staff to concentrate on other activities.

Improved hygiene

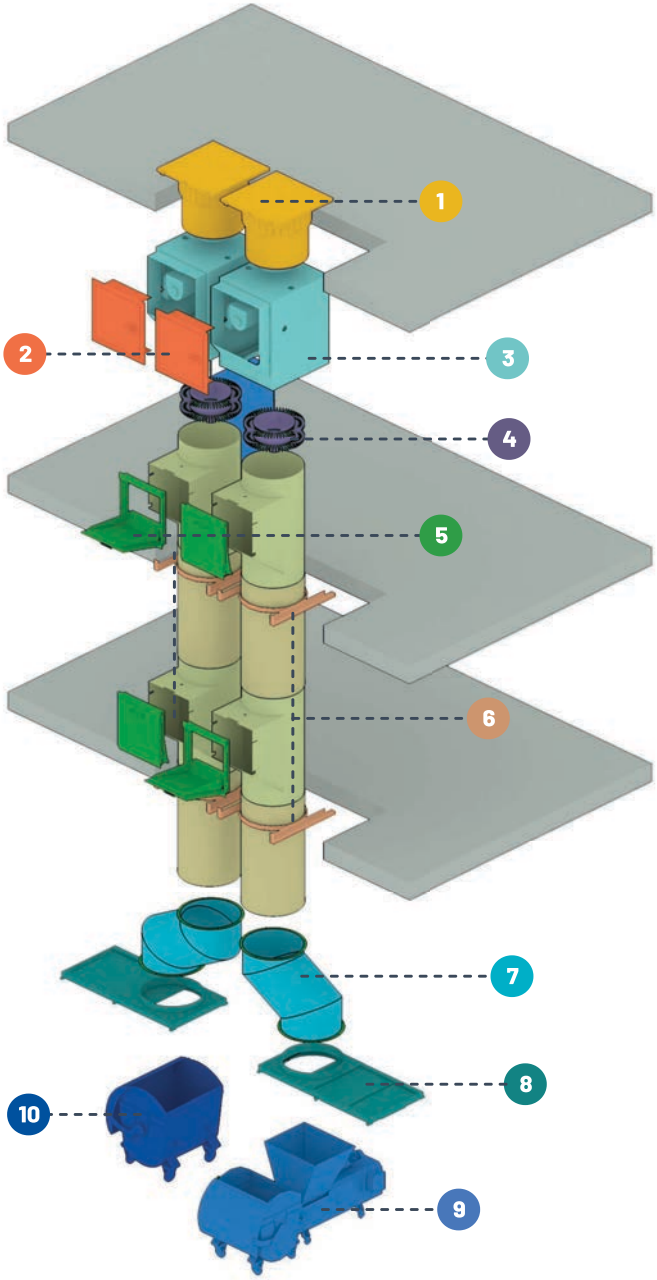

In order to prevent bad odors and bacteria from flourishing in the chute, we reconsidered the waste handling strategies and equipped the internal waste handling process with advanced automatic cleaning systems.

Whisper, whisper

We designed a quiet and sophisticated system to work for your building or hotel. Our chutes are isolated with anti-vibration rubber pads and coated with sound dampening paint and aluminium foil fiberglass wool.

Safety first

We deploy UL 10B 90 Minutes Fire Rated Door Assemblies with automatic electric strike locks for ultimate safety of residents and building operators alike. The simple to use automatic control unit was designed to undertake all operations safely and quickly.

1. Blast Vent Cap
2. Access Door
3. Cleaning System
4. Brush Unit
5. Hopper Doors
6. Support Frames
7. Chute Offset
8. Fire Damper
9. Chute Fed Compactor
10. Heavy Duty Waste Trolley

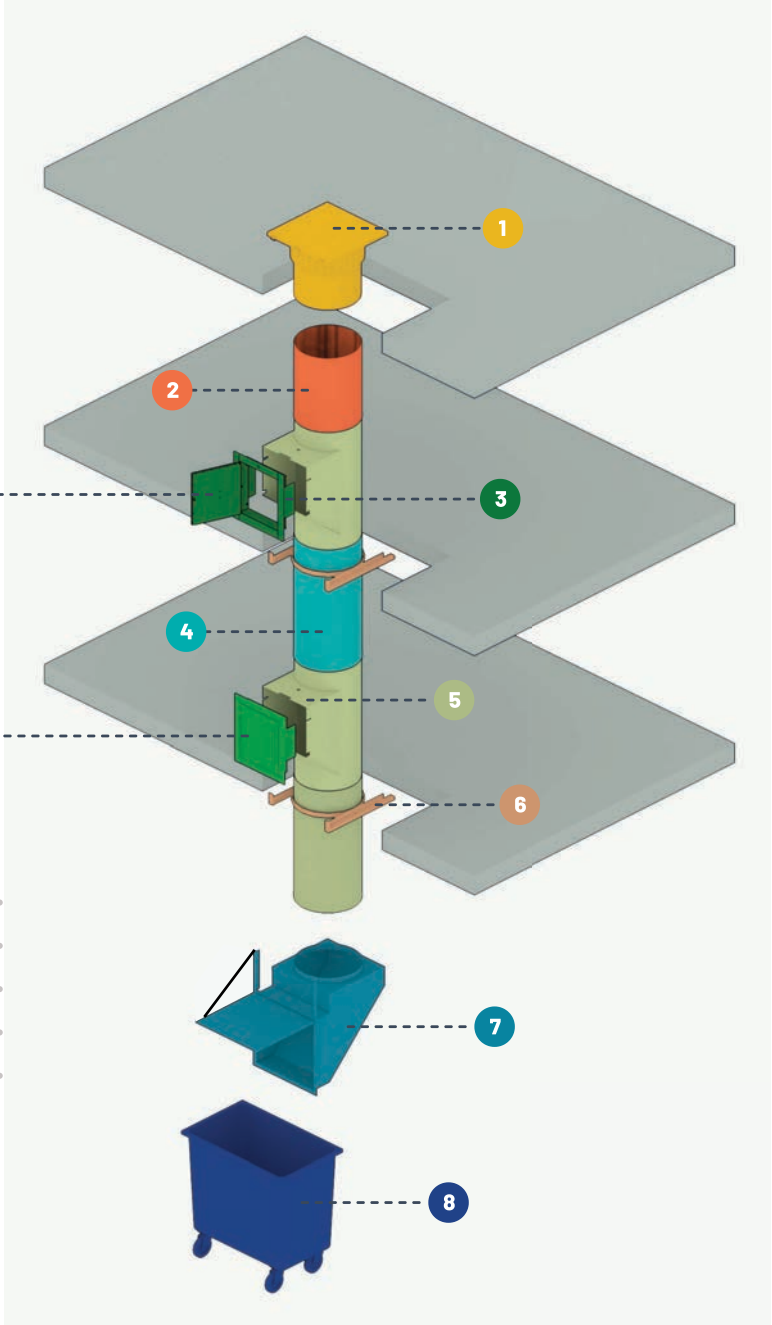

Laundry Chutes

Luxury hotels and even private villas choose laundry chutes over service elevators when it comes to the handling of bulky laundry from individual floors. We offer a variety of steel chute solutions which are quick and easy to install.

Enhanced Sound Properties

A quiet system for convenience in your building or hotel. The chutes are fixed to floors with hot dip galvanized brackets equipped with anti-vibration rubber pads. All outer surfaces of the chute are coated with a sound dampening material.

More Safety

Our doors and dampers are 90mins UL Fire Rated and the standard systems are equipped with automatic electric strike locks for safety of the residents and building operators.

More productivity

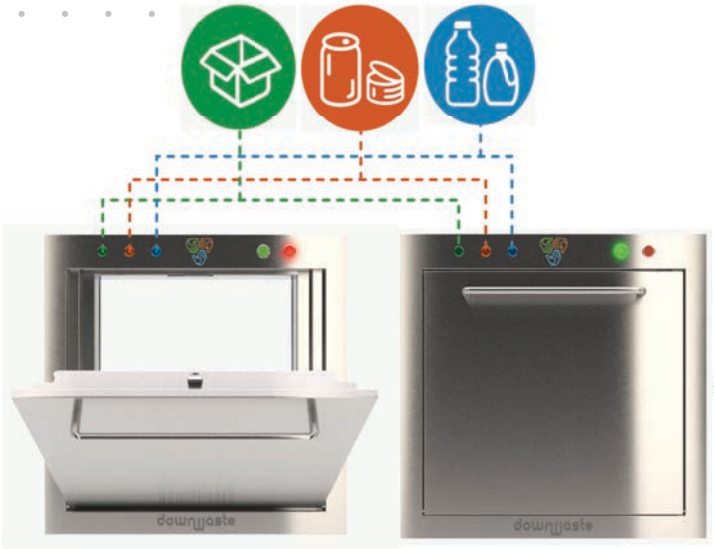

No more hassle of bringing the laundry downstairs.

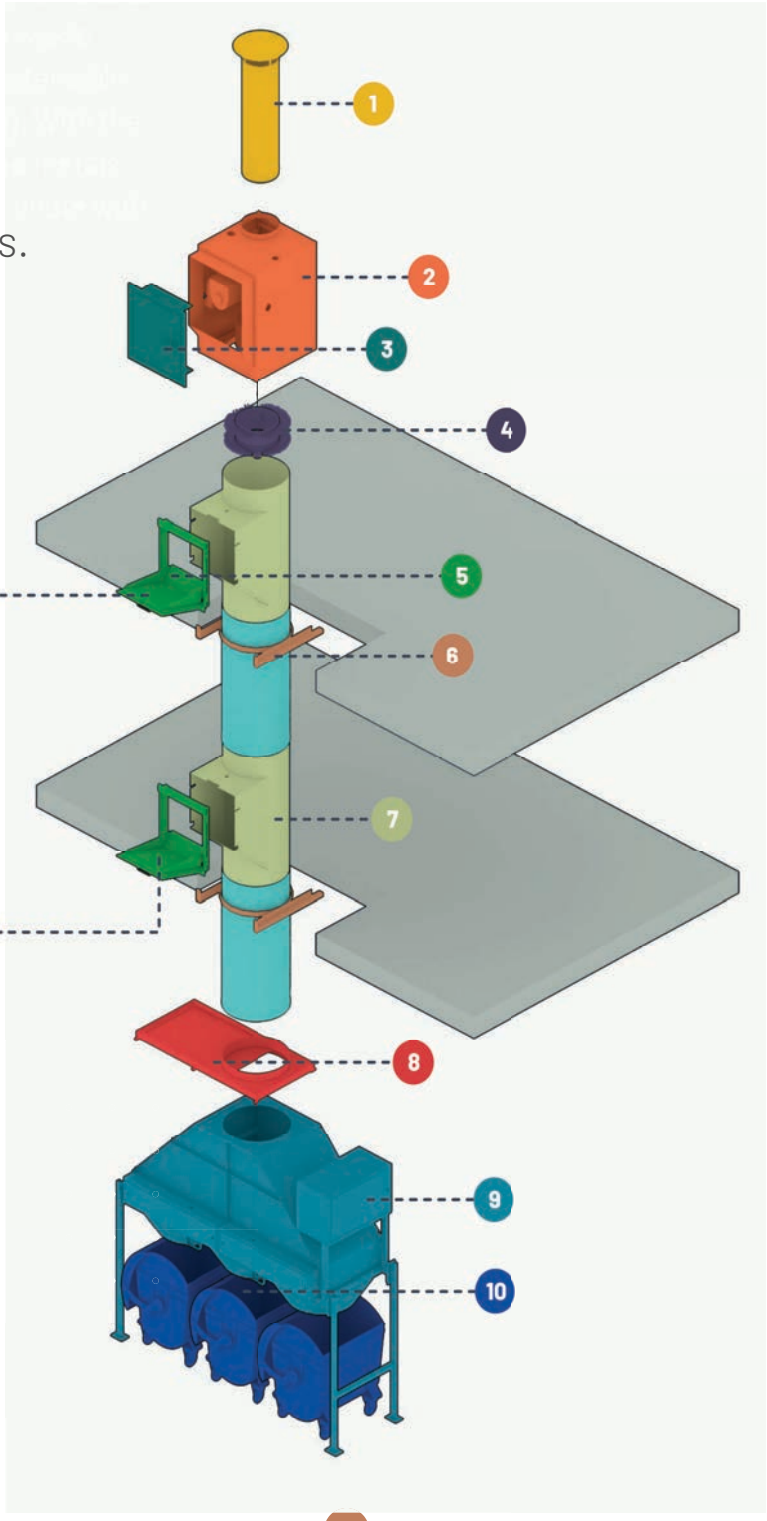

1. Blast Proof Vent Cap
2. Chute Trunk
3. Laundy Door
4. Soundproof paint applied to all surfaces.
